-

Profesional experience

Fabrica 3d

January 2021 - Current

Software Developer

In 3D factory I am in charge of the development of desktop applications, web pages and automation scripts. I started working part-time, currently only 3 to 10 hours a week since I also do other freelance jobs. Using C#, Python, Go, Rust, React and Tailwind.

Power Motos

June 2020 - Current

Gerent

In charge of stock management, sales of spare parts, motorcycles and their respective services. Practically in charge since I was 16 years old and a team with two more people, where I developed great soft skills on problem solving, leadership, decision making and others.

Habilities

- | | | |
|-------------|---------------------|----------------------|
| - Leader | - Communication | - Problem resolution |
| - Open mind | - Critical thinking | - Report writing |
| - Team work | - Decision making | - Speed learn |
-
